Downloadable package:
Walking Dead template

Thanks for downloading the "Walking Dead template" package for Adventure Creator. This package contains an interface set-up that emulates the style of Telltale Games' Walking Dead series. The fonts are not available for commercial use without purchasing them from the author.

To install this package, follow these steps:

1. Extract this package into your Adventure Creator project
2. Navigate to Adventure Creator → Downloads → Walking Dead template
3. Select **WalkingDead_ManagerPackage**, and click **Assign managers** in the Inspector
4. Optionally, copy across your old Menus to the new Menu Manager with the copy/paste buttons. You can switch to your old Menu Manager by changing the **Asset file** field.
5. Re-assign your player prefab and other settings in the new Settings Manager
